Payable to Hilton in the  
Community Foundation

Come and Join Us for a spectacular star studded night at the Hilton Manchester Deansgate.  
We promise you and your guests the Star Ball will be an evening to remember.

The evening will be raising funds for our charity, Hilton in the Community Foundation  
as well as our local partner for this year, The Christie Charitable Fund.  
The net funds raised will be split equally between the two charities

Hilton in the Community Foundation is committed to helping those most in need  
reach a brighter future. The Foundation is focused on its mission to  
support young people who are disadvantaged, whether through their health or through  
educational opportunities that we take for granted.

The Christie charity is fundraising to help build a new centre to treat more young  
cancer patients in the highest quality environment suitable to their age group.

Being treated for cancer can be particularly difficult for teenagers and young adults,  
so we are committed to offering the best care to these patients during  
this traumatic time.

The new centre will enable The Christie to save more young lives by enhancing  
research and offering more specialised treatment to our patients.
